

Dec. 23, 2010

Dear Virginia Voice Volunteers,

I am sending a donation to Virginia Voice to show my support of the all good you do for those who are vision impaired and who rely so much on your compassion and kindness, and the services you provide.

My mother, Nancy Torrence, praises you all every chance she gets. She tells everyone she knows - and even those she doesn't know - how very much it means to her to have Virginia Voice in her life. Honestly, Virginia Voice has changed her life...making it richer, keeping her connected to others and allowing her to continue to be informed about things that are happening in the world.

As I'm sure you know, losing one's sight not only creates limitations and hardships in one's life, it can affect ones quality of life which could contribute to various levels of depression. Virginia Voice, with its positive programs and dedicated volunteers, can have a powerful effect on the human spirit, providing a renewed sense of hope to those who may feel disheartened.

My gift is nowhere near large enough to fully express my thanks to you and all you do. But please know that my mother and I truly appreciate Virginia Voice's audio reading services...and more importantly, we offer our sincere thanks to each one of you who devote your time to enhance the lives of others.

Merry Christmas!

Patti Jo Knight
